**2026 Fellow  
Announcement  
soon!**

BOF Days

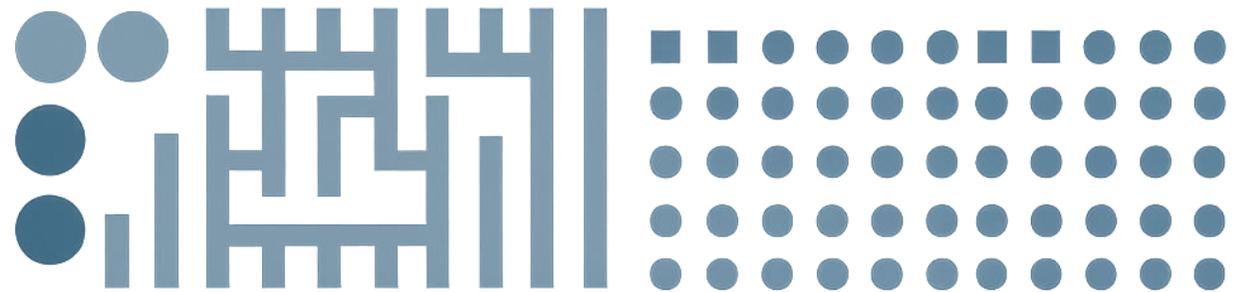

February 10 -  
12, 2026

<https://cass.community>

The  
Consortium  
for the  
Advancement  
of Scientific  
Software  
(CASS)

**CASS**

**BOF DAYS**

<https://cass.community/news/2026-02-10-cass-bof-days.html>

# CASS: Stewardship and Advancement of the Scientific Software Ecosystem

- **Inward-facing activities:** Strengthening software products
  - Improve development practices, sustainability, quality, and trustworthiness
  - Enhance user experience and integration within the broader ecosystem
- **Outward-facing activities:** Community engagement and discovery
  - Curate and evolve the software portfolio
  - Help teams connect with and grow their user communities
  - Enable the broader community to discover and adopt useful software

## CASS Members

**CORSA**  
Partnering with foundations to provide sustainable pathways for scientific software

**FASTMATH**  
Stewardship, advancement, and integration for math and ML/AI packages

**PESO**  
Stewarding, evolving and integrating a cohesive ecosystem for DOE software

**RAPIDS**  
Stewardship, advancement, and integration for data, visualization and ML/AI packages

**S4PST**  
Stewardship, advancement and engagement for programming systems

**STEP**  
Stewardship, advancement of software tools for understanding performance and behavior

Sponsored by the Department of Energy, Office of Advanced Scientific Computing Research

# Engage with CASS!

- Learn about CASS:
  - <https://cass.community/about/>
- Join the CASS Announcement list (low-volume):
  - <http://eepurl.com/iRiSnY>
- Find out more about our **software products**
  - Catalog: <https://cass.community/software/>
  - Collected as part of the [Extreme-Scale Scientific Software Stack](#) (E4S)
- Participate in **CASS Working Groups**
  - Impact Framework, Integration, Metrics, Software Ecosystem, User-Developer Experience, Workforce
  - <https://cass.community/working-groups/>

announcement soon!

SUSTAINABLE HORIZONS INSTITUTE

## BSSw Fellowship Program

The Better Scientific Software (BSSw) Fellowship Program gives recognition and funding to leaders and advocates of high-quality scientific software.

Fellowships Overview

Apply

Meet Our Fellows

BSSw Fellowship FAQ

### GOAL:

Foster and promote practices, processes, and tools to improve developer productivity and software sustainability of scientific codes

### AWARD:

We select at least three Fellows per year and honorable mentions as appropriate. Each 2026 BSSw Fellow will receive up to \$25,000 for an activity that promotes better scientific software. Activities can include organizing a workshop, preparing a tutorial, or creating content to engage the scientific software community.

# A Community Approach

- **Identify Shared Purpose & Values**

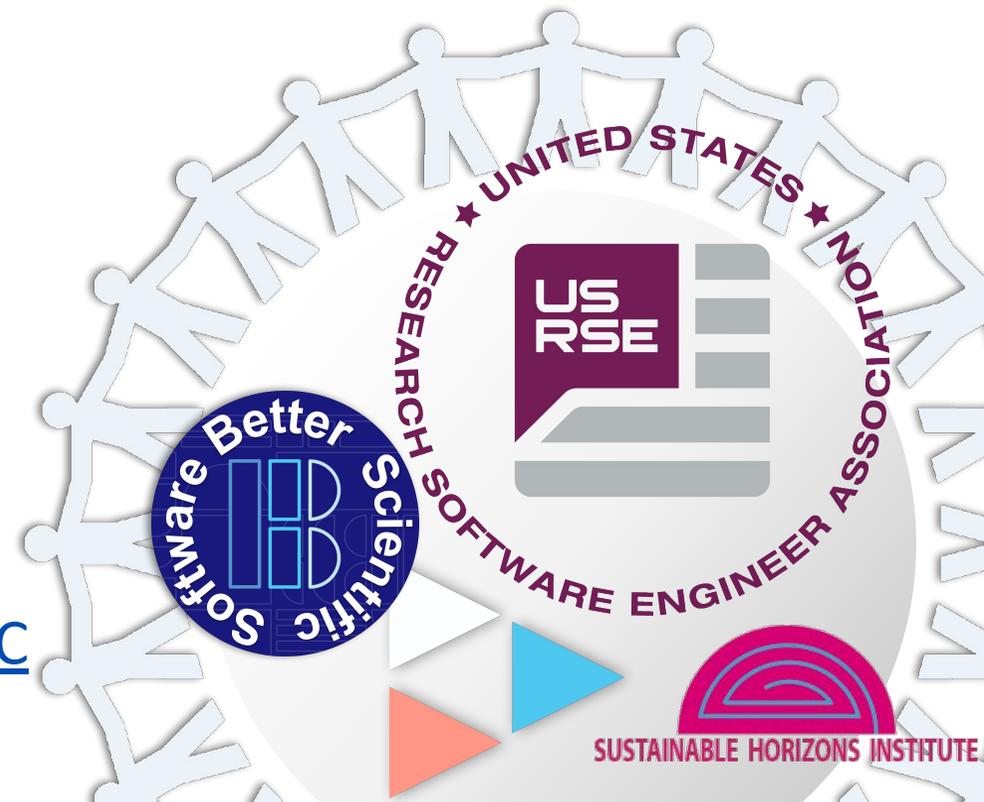

Meeting the scientific software challenges facing the nation requires a renewed emphasis on high-quality software and those who create it.

- **Provide Shared Spaces for Action**

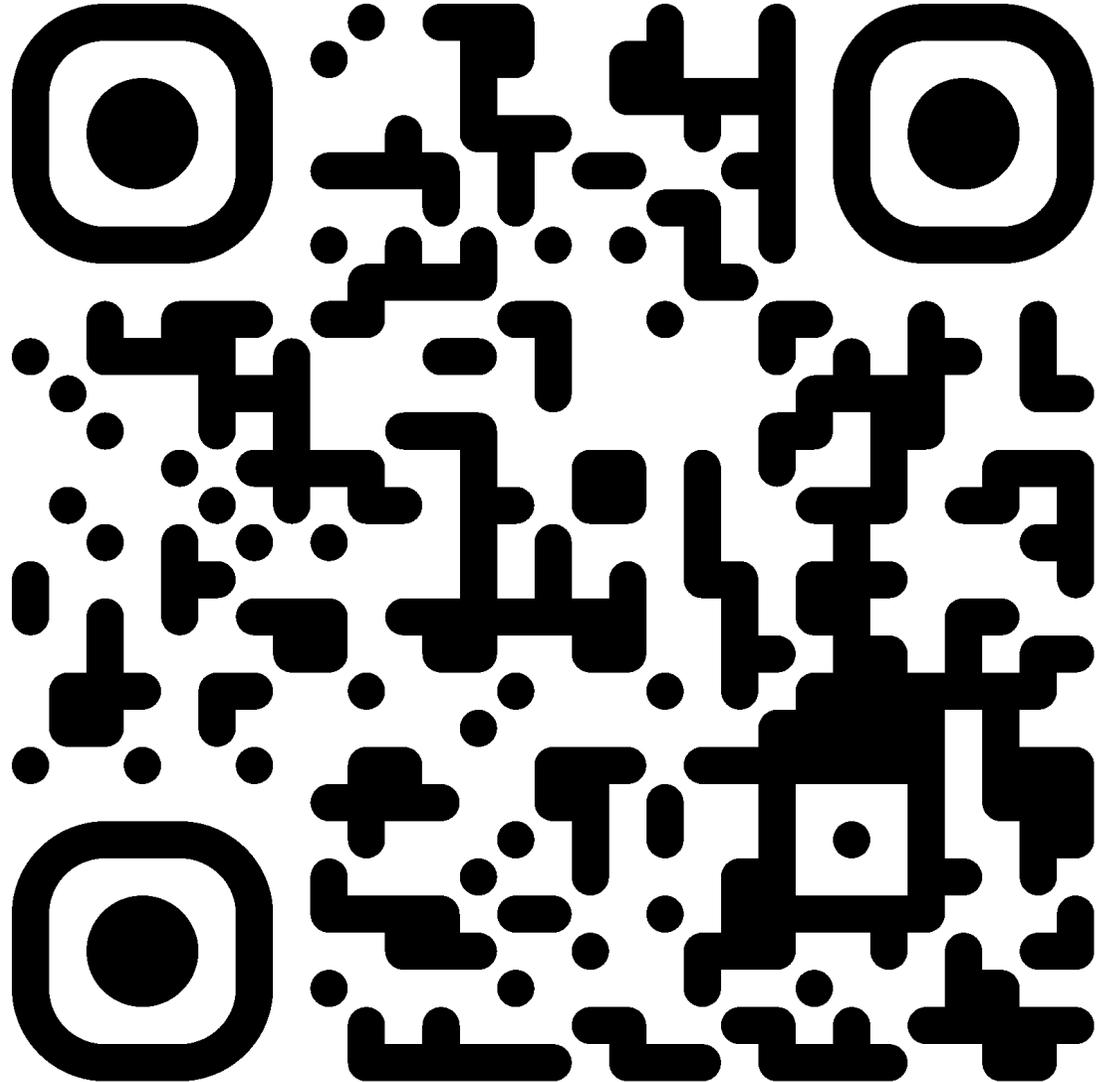

The [bssw.io](https://bssw.io) website and the IDEAS-Productivity [HPC Best Practices Webinars](#) are forums where BSSw Fellows and others can share content.

- **Champion the Work of Individuals**

The BSSw Fellowship strives to promote the work and profile of outstanding individuals as a way of developing a core group of people to drive these efforts.

## 2025 BSSw Fellows

**Alper Altuntas**  
NSF National Center for Atmospheric Research

**Jasmine Buckley-Williams**  
San Diego State University

**Brigitta Sipöcz**  
California Institute of Technology

**Peter K. G. Williams**  
Center for Astrophysics | Harvard & Smithsonian

**Junchao Zhang**  
Argonne National Laboratory

## 2024 BSSw Fellows

**David Bunten**  
University of Colorado Anschutz Medical Campus

**Dorota Jarecka**  
MIT McGovern Institute for Brain Research

**Olivia Newton**  
University of Montana

**Ken Raffanetti**  
Argonne National Laboratory

**Ryan Richard**  
Ames National Laboratory

**Leah Wasser**  
pyOpenSci

## 2025 Honorable Mentions

**Emmanuel Atoleya Atindama**

**Alejandra Castillo**

**Sierra Brown**

**Zeinab Serhan**

**Minhaz Zibran**

## 2024 Honorable Mentions

**Antigoni Georgiadou**

**Jack Marquez**

**Drew Paine**

**Noam Ross**

**Matthew Scarpino**

**Aristana Scourtas**

## 2022 Fellows

Hsu Anne, Rob Latham, Julia Dowsett-Laundrie, Aranya K. Mital, Nitesh Sukija, Koran Vohi

## 2021 Fellows

Marshall Garcia-Reyes, Mary Ann Leung, Chase Milton, Amy Roberts, Keith Swales, Julia Stewart-Loveland

## 2020 Honorable Mentions

David Steinhilber, Susanna Harbanshams, David Rogers, Rene Gassner-Coffler, Ignacia Laguna

## 2018 Fellows

Jeffrey Carter, Hy Jimenez, Daniel S. Katz, Andrew Lertbudsane

## 2023 BSSw Fellows

**Nicole Brewer**  
Arkansas State University Graduate Student

**Myra Cohen**  
Iowa State University Professor, Latin and Data Crust in Software Engineering

**Johannes Doerfert**  
Lawrence Livermore National Laboratory Computer Scientist

## 2023 Honorable Mentions

**Jean Lucas Bez**  
Lawrence Berkeley National Laboratory Postdoctoral Researcher

**José Monsalve Diaz**  
Argonne National Laboratory Postdoctoral Researcher

**Xu Liu**  
North Carolina State University Associate Professor, Computer Science

**William Hart**  
Sandia National Laboratories Distinguished Member of the Technical Staff

**Helen Kershaw**  
National Center for Atmospheric Research Software Engineer

**Rafael Mudafort**  
National Renewable Energy Laboratory Senior Researcher

## Laboratory

**Jonathan Mallon**

## 2022 Honorable Mentions

Scott Bratt, William Gooty, Brittany Johnson-Machens, Max Jones, Rafael Mudafort, Quibing Wu

## 2020 Fellows

Jonathan Mallon, Aishwarya Mahalingam, Naitik Goyal, Swaminathan Ramesh, Orly Rubin-Govadad

## 2019 Honorable Mentions

Taru Math, Kyle Niswayer, Stephen Andrews, Naitik Goyal, Benjamin Pritchard, Vanessa Seshat

## 2018 Honorable Mentions

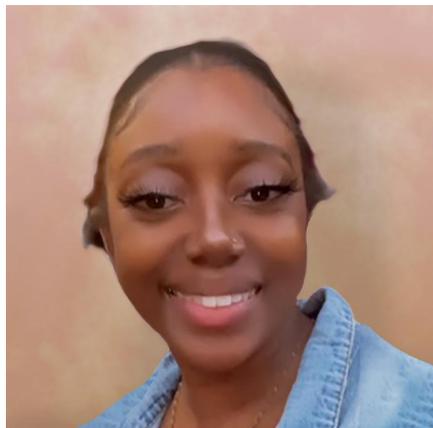

Neil Davis, Matt Henry de Foa, Olex Gendronowicz, Ting Li

# Meet the 2025 Fellowship Class

**Alper Altuntas**  
NSF National Center for  
Atmospheric Research

**Jasmine  
Buckley-Williams**  
San Diego State University

**Brigitta Sipöcz**  
California Institute of  
Technology

**Peter K. G. Williams**  
Center for Astrophysics |  
Harvard & Smithsonian

**Junchao Zhang**  
Argonne National  
Laboratory

## 2025 Honorable Mentions

**Emmanuel Atoleya  
Atindama**

**Alejandra Castillo**

**Sierra Brown**

**Zeinab Serhan**

**Minhaz Zibran**

# Brigitta Sipőcz

*Astronomer turned RSE at NASA/IPAC Infrared Science Archive*

- *Python open source maintainer*
  - *Mostly astronomy specific libraries, but also a lot generic infrastructure pieces through the Scientific Python Project*
- *Conferences: Scipy; Scientific Python Developer Summits; hackweeks; etc.*
- *Python tutorials and infrastructure*

**California Institute of  
Technology**

*Cross project and domain reusability and collaboration*

**BSSw Project:** *User-facing tutorials as code:*

*Reproducible and reliable tutorials with CI/CD*

**Caltech**

# Peter K. G. Williams

Center for Astrophysics |  
Harvard & Smithsonian

[pwilliams@cfa.harvard.edu](mailto:pwilliams@cfa.harvard.edu)

<https://newton.cx/~peter/>

*Technical lead, IAU Minor Planet Center; radio astronomer; long-time open-source contributor (GNOME, conda-forge, Tectonic); Rust enthusiast.*

## BSSw Project: Framework for architecting technical documentation

 **One Good Tutorial**

<https://onegoodtutorial.org/>

<https://github.com/pkgw/onegoodtutorial/>

<https://doi.org/10.5281/zenodo.18362470>

- ❑  **Synopsis:** 1–3 sentence summary of your project
- ❑  **Tutorial:** ✨ Show people what your software can do! ✨
- ❑  **Contact Information:** How to ask a human about your software
- ❑  **Install Instructions:** How to install your software
- ❑  **Citation Instructions:** How to cite your software
- ❑  **Contribution Statement:** How users can contribute to your project
- ❑  **Reference Material:** Precise specifications of APIs, etc.
- ❑  **Licensing Statement:** The legal status of your code
- ❑  **Acknowledgments:** Credit your funders

# Junchao Zhang

(jczhang@anl.gov)

RSE, Argonne National Laboratory

Former MPICH developer; Current PETSc/TAO developer

Daily work: coding, debugging and debugging

**BSSw Project: <https://mpi-debug.org>**

## MPI debugging resources and community hub

### The Problem

- There is always one more bug to fix
- RSEs *very likely* need to debug MPI codes
- Being able to debug MPI codes efficiently could enhance your productivity, morale, code quality and KPI
- Commercial MPI debuggers will cost you an arm and a leg
- MPI debugging resources are scattered on the web and might be outdated
- Generally unfriendly to MPI beginners

### The Proposal

- A community hub dedicated to MPI debugging, introducing free debugging tools, tips, and best practices
  - Hanging, non-deterministic results
  - MPI communicator, tag management
  - Error messages from 1M processes
- Everyone can comment, ask and contribute
- By RSEs, for RSEs, from newbies to veterans
- All are welcome to leave feedback there!

# Meet the 2024 Fellowship Class

**David Bunten**

**University of Colorado  
Anschutz Medical Campus**

Software gardening almanac:  
Cultivating sustainable  
software development in the  
generative era

Department of Biomedical Informatics  
School of Medicine  
University of Colorado Anschutz Medical Campus

# Software Gardening Almanack

The screenshot shows the homepage of the Software Gardening Almanack. It features a navigation menu on the left with items like 'Welcome', 'Garden Lattice', 'Software Forest', 'Verdant Sundial', 'Seed Bank', and 'Garden Circle'. The main content area includes a 'Welcome' section, an 'Inspiration' section with a diagram showing a cycle of three document icons (a seedling, a sunflower, and a wilting flower), and a quote by Gilles Clément: "The 'planetary garden' is a means of considering ecology as the integration of humanity – the gardeners – into its smallest spaces. Its guiding philosophy is based on the principle of the 'garden in motion': do the most for, the minimum against."

```
user@machine: uvx almanack check https://github.com/d33bs/demo
Installed 14 packages in 57ms
Running Software Gardening Almanack checks.
Datetime: 2025-10-03T14:08:42.861079Z
Almanack version: 0.1.9
Target repository path: https://github.com/d33bs/demo
The following Software Gardening Almanack metrics may be helpful to improve your repository:
```

ID	Name	Guidance
SGA-GL-0002	repo-includes-contributing	Consider adding a CONTRIBUTING file to the repository.
SGA-GL-0003	repo-includes-code-of-conduct	Consider adding a CODE_OF_CONDUCT file to the repository.
SGA-GL-0005	repo-is-citable	Consider adding a CITATION file to the repository (e.g. citation.cff, etc.).
SGA-GL-0007	repo-includes-common-docs	Consider including project documentation through the 'docs/' directory.
SGA-GL-0025	repo-doi-valid-format	DOI within the CITATION.cff file is not of a valid format or missing.
SGA-GL-0026	repo-doi-https-resolvable	DOI within the CITATION.cff file is not HTTPS resolvable or missing.

Software Gardening Almanack summary: 45.45% (5/11)

# Meet the 2023 Fellowship Class

**Nicole Brewer**  
Arizona State University

Improving accessibility of data and software with scientific web apps

**Myra Cohen**  
Iowa State University

Techniques for scientific software testing

**Johannes Doerfert**  
Lawrence Livermore National Laboratory

Demystifying the compiler black box

**William Hart**  
Sandia National Laboratories

Best practices for software supply chain security

**Helen Kershaw**  
National Center for Atmospheric Research

Improving code review skills for scientific software developers

**Rafael Mudafort**  
National Renewable Energy Laboratory

Effective communication of software design

**Jean Luca Bez**  
Lawrence Berkeley National Laboratory

Scientific Data Division,  
Postdoctoral Researcher

**Jose Monsalve Diaz**  
Argonne National Laboratory

Postdoctoral Researcher,  
Mathematics & Computer Science Division

**Xu Liu**  
North Carolina State University

Associate Professor, Computer Science

**Alisa Neeman**  
Muskingum University

Assistant Professor,  
Mathematics and Computer Science

**Kristina Riemer**  
University of Arizona

Scientific Programmer, Data Science Institute

**Brigitta Sipőcz**  
California Institute of Technology

Applications Developer

# 2022

**Ritu Arora**  
**University of Texas at San Antonio**  
Optimizing I/O for better performance

**Rob Latham**  
**Argonne National Laboratory**  
I/O sleuthing: a tour of I/O challenges and solutions

**Julia Stewart Lowndes**  
**National Center for Ecological Analysis and Synthesis (NCEAS), UC Santa Barbara**  
Openscapes: Open data

**Amiya K. Maji**  
**Purdue University**  
Simplifying scientific Python package management

**Nitin Sukhija**  
**Slippery Rock University of Pennsylvania**  
Secure scientific software development

**Karan Vahi**  
**USC Information Sciences Institute**  
Scientific workflows for high efficiency HPC

**Sarah Bratt**  
**Syracuse University**  
Ph.D. Student, School of Information Studies

**William Godoy**  
**Oak Ridge National Laboratory**  
Computer Scientist

**Brittany Johnson-Matthews**  
**George Mason University**  
Assistant Professor, Computer Science Department

**Max Jones**  
**University of Hawai'i at Mānoa**  
Postdoctoral Researcher, Department of Earth Sciences, School of Ocean & Earth Science & Technology

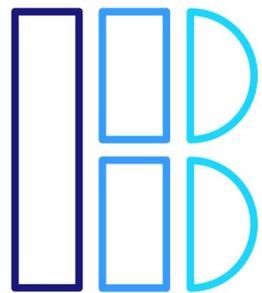

**Rafael Mudafort**  
**National Renewable Energy Laboratory**  
Research Software Engineer, National Wind Technology Center

**Qiusheng Wu**  
**University of Tennessee, Knoxville**  
Assistant Professor, Department of Geography

# 2021

## better scientific software

<https://bssw.io>

SO MY CODE WILL SEE THE FUTURE

## 2021 Class

### Fellows

**Marisol García-Reyes**

**Farallon Institute**

Increasing accessibility of data & cloud technologies

**Mary Ann Leung**

**Sustainable Horizons Institute**

Increasing developer productivity and innovation through diversity

**Chase Million**

**Million Concepts**

Project management best practices for research software

**Amy Roberts**

**University of Colorado Denver**

Enabling collaboration through version control user stories

### Honorable Mentions

**Keith Beattie**  
**Lawrence Berkeley National Laboratory**

Computational Research Division, Computer Systems Engineer

**Julia Stewart Lowndes**

**National Center for Ecological Analysis and Synthesis (NCEAS), UC Santa Barbara**

Openscapes Director

**Jonathan Madsen**  
**Lawrence Berkeley National Laboratory**

NERSC, Application Performance Specialist

**Addi Thakur Malviya**  
**Oak Ridge National Laboratory**

Software Engineering Group, Group Leader

*Increasing developer productivity and innovation  
through workforce development*

### Motivation

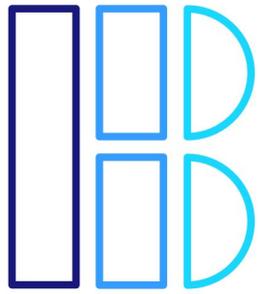

- Different ways of thinking increases innovation
- Critical workforce challenges
- Software sustainability for everyone → Sustainable workforce

### A Few Current Projects

- Consortium for Advanced Scientific Software (CASS) – Broadening Participation Initiative
- Sustainable Research Pathways
- Building Engagement Program
- BSSw Fellowship Administration
- Intro to HPC through Energy Projects

# 2020

## better scientific software

<https://bssw.io>

SO MY CODE WILL SEE THE FUTURE

## 2020 Class

### Fellows

**Nasir Eisty**

University of Alabama

Automating testing in scientific software

**Damian Rouson**

Sustainable Horizons Institute,  
Sourcery Institute

Introducing agile scientific software development to underrepresented groups

**Cindy Rubio-Gonzalez**

University of California, Davis

Improving the reliability and performance of numerical software

### Honorable Mentions

**David Boehme**

Lawrence Livermore National Laboratory

Research Staff, Center for Applied Scientific Computing

**Sumana**

Harihareswara  
Changeset Consulting

Founder and Principal, Open source software management and collaboration

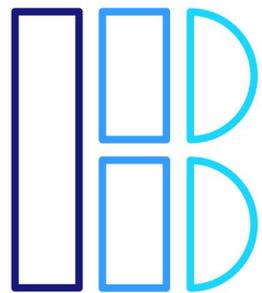

**David Rogers**

National Center for Computational Sciences, Oak Ridge National Lab

Computational Scientist

# 2019

## better scientific software

<https://bssw.io>

SO MY CODE WILL SEE THE FUTURE

## 2019 Class

### Fellows

**Rene Gassmoeller**

University of California, Davis

Guiding your scientific software project from inception to long-term sustainability

**Ignacio Laguna**

Lawrence Livermore National Laboratory

Improving the reliability of scientific applications by analyzing and debugging floating-point software

**Tanu Malik**

DePaul University

Reducing technical debt in scientific software through reproducible containers

**Kyle Niemeyer**

Oregon State University

Educating scientists on best practices for developing research software

### Honorable Mentions

**Stephen Andrews**

Los Alamos National Laboratory

Staff Scientist, XCP-8: Verification and Analysis

**Nasir Eisty**

University of Alabama

Ph.D. Student, Computer Science

**Benjamin Pritchard**

Virginia Tech

Software Scientist, Molecular Sciences Software Institute

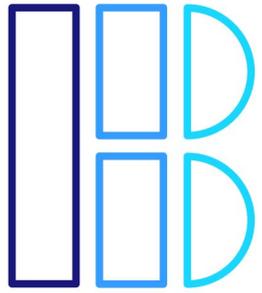

**Vanessa Sochat**

Stanford University

Research Software Engineer, Stanford Research Computing Center

# 2018

## better scientific software

<https://bssw.io>

SO MY CODE WILL SEE THE FUTURE

### 2018 Class

#### Fellows

**Jeffrey Carver**

University of Alabama

Improving code quality through  
modern peer code review

**Ivo Jimenez**

University of California, Santa  
Cruz

Enabling reproducible research  
through automated  
computational experimentation

**Daniel S. Katz**

University of Illinois at Urbana-  
Champaign, National Center for  
Supercomputing Applications

Giving software developers  
long-overdue credit through  
principles for software citation

**Andrew Lumsdaine**

Pacific Northwest National  
Laboratory, University of  
Washington, Northwest  
Institute for Advanced  
Computing

Guiding efficient use of modern  
C++ for high-performance  
computing

#### Honorable Mentions

**Neal Davis**

University of Illinois at Urbana-  
Champaign

Teaching Assistant Professor,  
Computer Science

**Marc Henry de Frahan**

National Renewable Energy  
Laboratory

Postdoctoral Researcher

**Elsa Gonsiorowski**

Lawrence Livermore National  
Laboratory

HPC I/O Specialist, Livermore  
Computing

**Ying Li**

Argonne National Laboratory

Argonne Scholar, Argonne  
Leadership Computing Facility

# Elsa Gonsiorowski

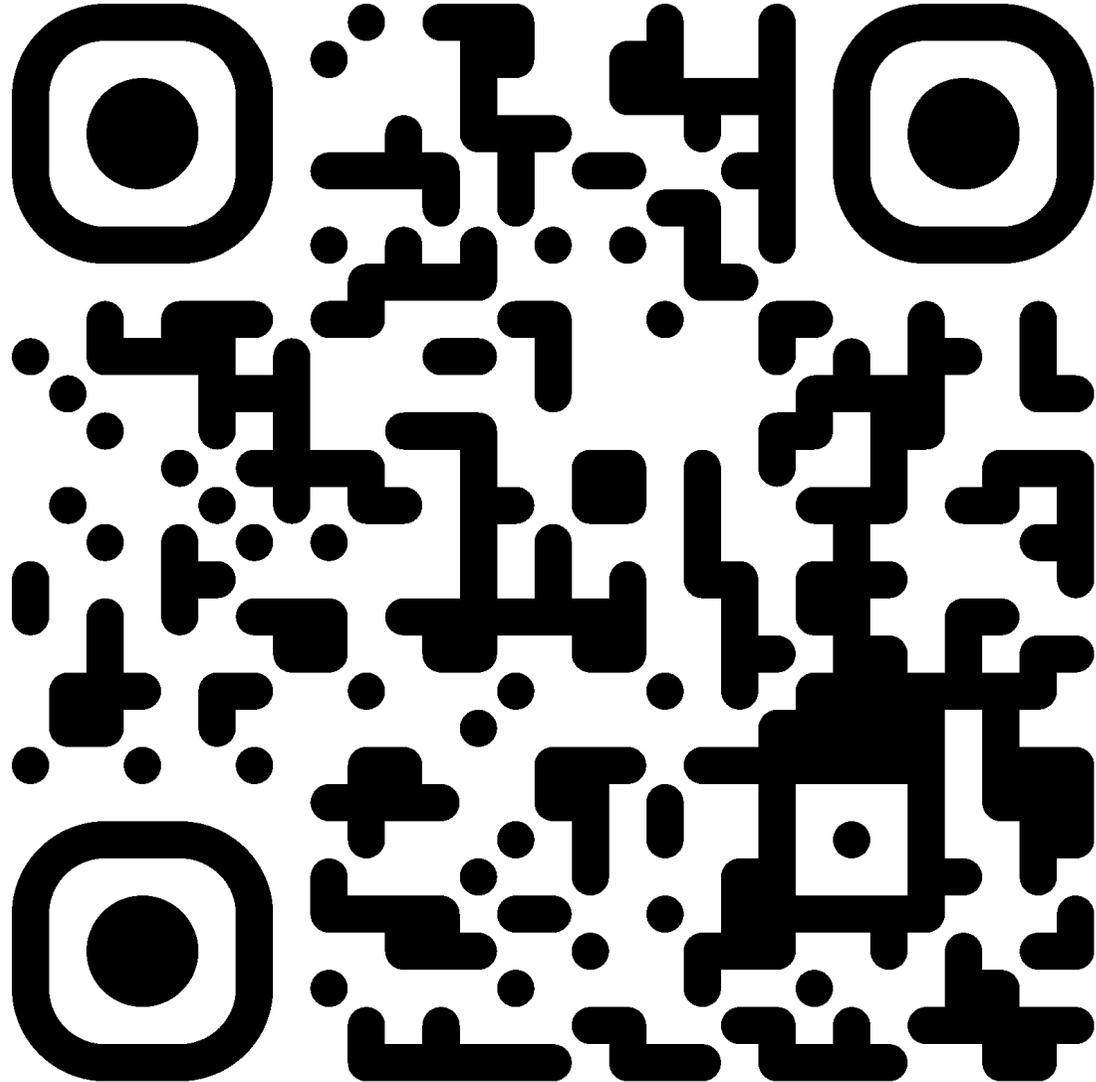

*gonsiorowski1@llnl.gov*

- BSSw Fellowship Coordinator  
Focused on stewarding the fellowship program and building connections to the broader RSE and HPC community
- HPC Support Specialist for LLNL
- WHPC Executive Board
- Passionate about knitting, CrossFit, Emacs, and fun activities for 4 year olds

**Lawrence Livermore  
National Laboratory**
